THE IMMORTAL LIFE OF HENRIETTA LACKS

Doctors took her cells without asking.
Her cells never died.
They launched a medical revolution
and a multi-billion-dollar industry.
More than twenty years later, her children faced a choice
they never should have been given.

Approach to coordinated care

Maccabi has a comprehensive, fully integrated health information and communication system with a comprehensive database that includes more than 18 years of data on almost 2 million members. Maccabi functions on the basis of a decentralized organizational approach.

Figure 1: Maccabi coordinated care. Networking and Decision Support Systems are at the heart of delivering coordinated care to Maccabi members.
